

WELDTRAINER

THE WELDING SIMULATOR

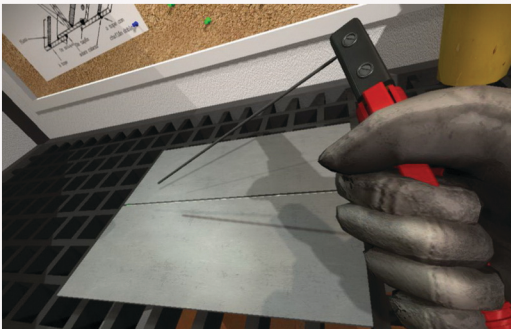

WELDING SIMULATOR

WELDTRAINER

The WeldTrainer is a welding simulator, using 100% virtual reality technology, which allows to practice welding and observe the effects during a project.

With WeldTrainer simulator you can train on low cost, and besides it is completely a GREEN solution.

Reduces training time and material costs

Tracks students performance and improvements

Makes training fun

Eliminates environmental impacts

WeldTrainer:

2 processes: MMA, MIG/MAG

Effective analytical system

Instructors module

New:

- theory tests
- pipe welding
- replay system

The system updates are available FREE!
